

## R3 Venture Development Program

As the blockchain platform built for business, Corda powers a world of frictionless commerce. More than 300 companies in the thriving Corda ecosystem show the possibilities that this exciting technology offers as they bring more application (CorDapps) live to reduce costs, create new revenue streams or reshape entire markets.

At R3 we know that the most exciting and innovative opportunities are pursued by new companies and brave entrepreneurs. Being focussed and nimble, start-up take on incumbents, apply new technology fast and don't face the classic cannibalisation challenges their legacy peers have. R3 are committed to support these early stage companies to be successful and we believe that every application built on Corda – no matter the size or stage – deserves a trusted and supportive partner invested in their success and longevity.

R3's Venture Development program is the gateway into R3 and the Corda ecosystem for all pre-series A companies building on Corda. We help you to validate your business and product market fit faster.

### **Here's what you can expect from the program:**

- Community events and workshop
- Mentorship from industry leaders
- Access to potential customers and investors
- Partnerships with high quality incubator and accelerator programs
- Sponsored industry challenges

### **How to Apply**

Tell us more about your company by filling [this form](#).

You will be contacted by a member of the R3 Venture Development team and it will allow us to start making the right connections for you and invite you for relevant events.
